Are you struggling or succeeding in life?

“If you are not succeeding, it doesn’t mean there is something wrong with you…just something wrong with the way you are trying to do it!” says ADHD Success Coach Laurie Dupar who uses creative strategies to build her six-figure coaching business, launch four young adults and become director of the International ADHD Coach Training Center. Editor of the #1 best selling Amazon series ADHD Awareness Book Project and author of Unlock the Secrets to Your Entrepreneurial Brain Style, Laurie understands the complicated workings of the ADHD/entrepreneurial brains and teaches alternative ways of accomplishing goals and minimizing challenges. You’ll leave her presentations full of ideas and strategies suited to your unique brain wiring to help you reach the next level of your business, life, academics and relationships.

The Top Three ADHD Medication Pitfalls & How to Avoid Them Do you wonder if your ADHD medication is the right one for you? Are you still not sure if it is “working”? Using her unique experience and expertise as a Psychiatric Nurse Practitioner and ADHD Coach for the past fifteen years, Laurie answers these and other questions about why your ADHD medication might not be working and what you can do about it.

Manage Your ADHD Entrepreneurial Brain Style: Unleash the Productivity & Profitability in Your Business Ever felt out-of-control, spinning and scattered in your business as if you’re rambling aimlessly in the pursuit of success and still not checking anything off your to-do list? Laurie shares the same useful and practical strategies that led to the success of her own six-figure business: tap into your innate strengths, end each day with a feeling of accomplishment and retake control of your business.

Have You Reached Your ADHD Tipping Point? Suddenly overwhelmed, stuck and feel like your life has been derailed? You might have reached your tipping point, where the strategies you used to manage your ADHD are no longer working. You’ll leave this talk recognizing 5 warning signs that might mean you have reached your tipping point and how to get your life back on track.

Normal Aging, ADHD or Alzheimer’s: How to Know You’re Not Going Crazy Has your brain become a “cerebral ghost town”? Forgetting names, dates, past events? Do you wonder if you are losing your mind or going crazy? All of us experience forgetful, fuzzy moments, particularly during high stress, and as we grow older. How do you know if this increased forgetfulness is just the tip of the iceberg? Find out how to tell when fuzzy thinking is simply part of normal aging or when might it be indicative of ADHD or something more serious.

Keep Motivated and Moving Forward in Your Coaching Business Have problems staying focused on what needs to get done to grow your coaching business? Does your motivation wane? Frustrated and disappointed because you don’t follow through? Enjoying a sustainable and growing ADHD Coaching business requires action or progress stops dead in its tracks. Stop the frustration, exhaustion and disappointment of not having the coaching business you want and start enjoying entrepreneurial success. This session gives you concrete strategies and “secret sauce” tips for getting motivated, moving forward and getting it done.
